

PACKAGED ICE

Wire Tie Bag Closer

The HAMER Brand Model 125 Wire Tie Closer for packaged ice bagging applications provides high speed closing of a variety of light mil thickness polyethylene and poly mesh style bags.

Using a spool of self-feeding wire, the Model 125 gathers the bag top and attaches and secures a “staple” closer. Tamper-proof and able to operate at speeds up to 75 bags per minute, the Model 125 provides a low-cost and effective bag seal.

HAMER Model 125

WIRE TIE CLOSER FOR PACKAGED ICE BAGGING

FEATURES
